

***PLEASE JOIN a public health prevention webinar:***

***Tuesday, October 2, 2012 - 10:00-11:15 AM***

**Safe Sleep for Infants in New Mexico: What we know from live birth surveillance and the NM Sudden Unexpected Infant Death case registry**

This webinar will cover the AAP recommendations for SIDS/SUID prevention, NM PRAMS data on infant sleep environments, and findings from the NM SUID registry.

The webinar will be given by the NM Department of Health Maternal Child Health Epidemiology Program, Children's Medical Services, and Project LAUNCH.

**AGENDA:**

- I. Discussion of the prevalence of SIDS and SUID in NM and the U.S
- II. Overview of the AAP recommendations for SIDS/SUID prevention and visuals of risky sleep environments
- III. Description of current findings on infant sleep practices from the NM Pregnancy Risk Assessment Monitoring System
- IV. Current findings from the NM SUID registry
- V. Recommendations for addressing infant sleep environments and practices in clinical, home visiting, and case management settings

**LEARNING OBJECTIVES:**

1. Apply the latest NM data on SUID/SIDS to clinical and case management practice
2. Gain awareness of statistical and clinical resources for SIDS/SUID prevention and best practices

**TARGET AUDIENCE:**

Pediatric, home visiting, community health, and primary care professionals who need current data-driven information about sudden infant death and risk reduction efforts for NM families

**To Register go to: <http://www.surveymonkey.com/s/B89H73J>**

You will receive the meeting link and dial-in number the day before the webinar.

OR

You may attend in person at Family Health Bureau, MCH Conference Room,  
2040 S. Pacheco, Santa Fe, NM 87505
